Score

PITCHERS' DUEL WAS VERY PRETTY

Davidson and Gallagher
Were the Opposing
Mound Men

Montpelier tried to even things with the Italians in yesterday's game at Invertry park but failed to accomplish the task when the Italians came across with the decisive punch in the ninth inning in a 5 to 4 score. It was as close and exciting a game as the fans have had a chance to see in many a day, with Tommy Davidson on the mound for the I. A. C.'s and Gallagher doing the twirling for the Capital city boys.

The Italians were the first to score, Comolli, the first man up in the second inning, rapped out a nice little single, stole second and third and came home on Ricciarelli's sacrifice fly to center field. In the third Montpelier got busy. After Ricciarelli misjudged Falloon's long fly, Gallagher singled, stole second and came home behind Falloon when Scott laid up against one of Tommy's slants for three bases. This ended all scoring in this frame, for Murch was an easy infield out, Maiden to Calagni.

In the fifth the Italians made their second run of the game. Calagni, the first man up, singled to right, went to second on a sacrifice by Davidson, took third on Maiden's infield out and scored on an error by Falloon.

In the next inning Montpelier made another pair of runs when Murch, the first man up, worked Davidson for a free ticket; Pape reached first on an error by Lavoie; when Sinney sacrificed they moved up a peg and Murch scored when they worked the double steal, and Pape scored on the next pitched ball after Bartlett hit a high fly to center for a sacrifice. This ended the scoring for Montpelier.

The Italians commenced to make things unpleasant for the Capitals again in the eighth inning when Comolli singled to right field. Nicora, who thought perhaps he had another hit in his system, went to bat for Brown and hit to the center field fence, sending Comolli to third, Comolli coming home on a fielder's choice later. The real music was held until the ninth, however. Calagni, the first man up, singled, Granai running for him; Davidson worked his opponent for a pass, and Stuart singled to center; Gaco and Lavoie followed with three whiffs apiece, but Comolli, who did nearly half of the Italians' hitting, met the ball hard and by great running reached first about 50-50 with the ball and Granai dashing home with the tying run and Davidson close behind him, beating the ball by a second with the winning run. This ended all the scoring, for Tomasi fanned, making the third out, and the best that Montpelier could do was to get a man as far as second only to be run down trying to reach third. The score:

Notes of the Game.	
It was a great pitchers' duel, with Davidson deserving all the credit that fans can give him.	
Gallagher seemed to have the better of the strikeouts but Davidson's control was better and he held them to only three hits.	
Scott seems to be about all the Montpelier has.

DO YOU SUFFER FROM BACKACHE?

When your kidneys are weak and torpid, they do not properly perform their functions: your back aches and you do not feel like doing much of anything. You are likely to be despondent and to borrow trouble, just as if you hadn't enough already. Don't be a victim any longer.

The old reliable medicine, Hood's Sarsaparilla, gives strength and tone to the kidneys and builds up the whole system. Get it to-day.—Adv.

pelier team has on the offense; his timely hitting was easily the feature of the game.

Comolli was the hardest hitter for the Italians, having three out of four times up.

Nicora's pinch hit was a beauty, it sailing into deep center.

BASEBALL BRIEFS.

Evers will be back in the game Saturday. Without Evers the Braves seem as helpless as a ship without a rudder.

Gardner's plays in the doubleheader between Chicago and Boston were nothing short of sensational.

The lowly Athletics won a game from the St. Louis Browns Tuesday and then dropped a couple to them yesterday.

Nearly all the great outfield stars came from the South. Take for instance, Cobb of Georgia, Jackson of South Carolina, Robertson of Virginia, Speaker of Texas, but Burns came from New York.

There is probably no other city in the world that can boast of four as good catchers as Chicago has claimed in the last decade. At first the Cubs had Johnny Kling and when he began to slip they unearthed Jimmy Archer. The White Sox had Billy Sullivan up to a few years ago and after he began to go down hill they picked up Ray Schalk, who is the premier catcher in the game to-day and probably of all time.

When old Ed Walsh limped into the arena of combat in Boston Tuesday in the ninth inning of the first game, the Boston fans gave him a good hand to show him that his presence brought back pleasant memories of bygone days.

A large delegation from St. Johnsbury was over to see the game, Charley Hoernle, one of their number, being selected to do the arbitrating.

Through Cleveland's double victory yesterday it gives them the lead over New York by five points.

There are six teams in the American league that are within 65 points of the top.

Two double bills for Carrigan's climbers in two days is not such a bad stunt when one stops to think that they are up against such men as Eddie Collins, Joe Jackson and Fournier, and facing pitchers like Wolfgang, Russell and Cicotte.

OLD GEN. APATHY IN THE SADDLE

Ancient Enemy of Political Candidates Is on Hand Early in the Present Campaign.

Washington, July 13.—This is the season of the presidential year when that ancient enemy of the political candidate, old General Apathy, invariably makes his appearance. Living up to precedent, he has arrived on schedule time in the present campaign, and he is causing more than the usual amount of distress to the candidates.

The apprehension that the voters are going to be hard to interest this year and that there is likely to be a light vote finds free expression about Washington. In the House and Senate, among the candidates for re-election, this apprehension is especially pronounced. Leaders who will have a prominent part in the national campaign are uncertain about the attitude of the voters and don't know whether they can be aroused sufficiently to cast about a normal vote in November.

One reason for this fear is found in the results of some of the presidential primaries. In a number of states the primary balloting was extremely light. So far was this true that at the time it gave rise among the opponents of the primary to a great deal of adverse talk about this method of expressing a choice.

Then there is the question of how many voters will deliberately remain away from the polls because they can't find a candidate and platform in combination to suit them. It is not unlikely that elements of considerable numerical strength will be inclined to this course, at least in the early stages of the campaign. For example, a good many Progressive party men will probably be disappointed because Roosevelt was not named and will absent themselves from the polls rather than vote for either of the leading candidates, Hughes or Wilson. It is probably true that before the campaign is ended a lot of those now sulking in their tents will align on one side or

the other. Just now, however, the politicians are concerned how to reach them. The war in Europe, with its compelling events and its potency to draw attention to international affairs, has had a strong tendency to keep Congress from giving the usual study to domestic questions. Big bills of vast domestic importance have been treated in Congress this session with an astonishing lack of consideration. It is not at all unlikely that voters will be found in much the same frame of mind toward ordinary domestic issues as is Congress.

It is not a comfortable year for the campaign speaker; but what troubles him most at present is the uncertainty of being able to get the voters out to political meetings to be "spell bound."

'LIGHT WITHOUT HEAT' LONG SOUGHT, FOUND?

French Engineer, Dussaud, Reported to Have Made Important Discovery—Paper Rolls Instead of Celluloid Films in Movies Would Be Possible.

Paris, July 13.—The substitution of paper rolls for celluloid films in moving picture machines, made possible by the new "cold" light discovered by the French engineer, Dussaud, which is described to the Academy of Science by Professor Branley, with whom Dussaud studied the new light, is obtained by automatic separation of heat rays from luminous rays which occur together in all sources of light hitherto known to science.

The quest of an absolutely pure light devoid of all heat long has been one of the great problems of modern physics. The electric light is the nearest approach to this ideal, but far from it, as it gives off a certain amount of heat.

Mr. Dussaud has been working on this problem for many years. The light obtained by his method is so intense that it is possible to throw images from newspaper illustrations, picture postcards and photographic prints on a screen even in a lighted room as clearly and sharply as if they were glass lantern slides.

RELUCTANTLY AGREES TO LET GOETHALS RESIGN

President Again Pressed By Governor of Canal—Slides Are Probably All Over.

Washington, July 13.—President Wilson yesterday agreed to accept the resignation of Major General Goethals as governor of the Panama canal at an early date, to be fixed by the general. General Goethals called at the White House and again urged his desire to resign the governorship and retire from the active list of the army, now that his work of building the canal had been finished. Later the president authorized the statement that he reluctantly had left the matter in General Goethals' hands. Colonel Chester Harding, now engineer of maintenance in the canal zone, probably will be appointed governor.

General Goethals was promoted and given the right to retire by an act of Congress. He planned to give up his work several months ago, but withdrew his request because of renewed slides in the canal. He now thinks the danger of serious slides has been eliminated and does not expect to return to Panama.

CAMPAIGN LINES EXTENDED.

Democrats to Have Branch Headquarters in Chicago and on Pacific Coast.

Chicago, July 13.—Branch national campaign headquarters will be opened in Chicago and in all probability on the Pacific coast, Vance C. McCormick, chairman of the Democratic national committee, announced here yesterday. The Chicago headquarters will be opened Aug. 1. "I am working on the selection of the campaign," Mr. McCormick said, "and expect to have it ready in a few days. When that has been announced, we will
